NOTE:
Full Control of Access is defined as a connection to a facility provided only via ramps at interchanges (major roads). No private driveway connections allowed.

NOTE:
Partial Control of Access is defined as one access point per parcel, regardless of the number of parcel owners. For example, 2000 feet or more, an additional access point may be considered. For properties that have access, prior to the Median Break, adjacent to SR 1770 (Sunset Avenue) may be eliminated.
